

Morrell Moments

January 2024

“A man's heart deviseth his way: But the LORD directeth his steps.” Prov. 16:9. Although we had planned to return to Argentina on January 4th, it became clear that the Lord

had other plans. Before Christmas James began experiencing some sharp pain in the leg that was previously broken. After x-rays, ct scan, and MRI it has been determined that the pain is likely resulting from a tendon. **Please pray for healing as James begins physical therapy.** An extra blessing was discovered that his therapist is an mk from the UK.

God revealed His wisdom in providence in that the week that we should have been packing and leaving for Argentina James' mother took ill and was in the hospital for the week. She is now recovering at home, but has heart issues that the doctors are trying to get under control. We are thankful for the opportunity to be with her while she is recovering, **Please pray that God would give the doctors wisdom to help her recover and that God would provide her with healing.**

The camp ministry is going strong right now having just finished up with a week of family camp and then teen camp. Next week begins another week of teen camp. **Please pray for the young people** as they come in to enjoy a week of fun, hanging out while sharing mate (mattay), and hearing God's Word **that God would work in their hearts that they would come to know Him more. Pray also that some would answer the Lord's call to serve Him in ministry and pursue training at the Bible Institute.**

The Gorositos continue to keep the ministry moving there in Chivilcoy in our absence. Lord willing, Martín and Sandra will continue to transition into the full-time director role at camp. **Please pray for God's provision for them as he considers leaving his job to minister more effectively.**

Now that we know that we are going to be here for the next few months while James is still recovering, we are going to continue the ministry of visiting churches to be an encouragement in missions. Winter months can be tricky in the Northeast because of winter storms. **Please pray for safety in travel and open doors in churches to share the ministry and encourage believers.**

Thank you for your ministry of prayer as we partner together to reach the lost for Christ!

Kid's Corner

Winter in Maine means snow and ice! We are thankful for the time that we can enjoy a little winter wonderland while we are delayed in our return to the hot summer of Argentina! We had a day of rain followed by frigid weather which turned a layer of snow into an ice-skating area. We have continued to add water on cold nights creating a nice ice-skating arena!

Hannah and Jaimie were home for the holidays making for a fun three weeks of reconnecting. It was a blessing for us to all sing together at our Christmas Eve service.

Another added blessing resulting from our delay is the opportunity to participate in SMASH's (a homeschool acting group) performance of "As You like It" as extras. This makes for a busy few weeks as we get ready for the performances in the middle of February.
